Prix: 25,00\$ approximatif

Price (licensees) : 23,00\$ approx

Format: 500 ml

This rhubarb liqueur is produced from our cultivation in Franklin, Quebec.

The liqueur is produced by using a combination of fermentation and maceration. No water or additives are added during production, the liquid is purely from the fruit and alcohol. The rhubarb is delicately pressed in order to exude a maximum of desirable aromas. Our rhubarb liqueur has a relatively low sugar content, and its alcohol level is 23% alc./vol.

Our rhubarb liqueur's aroma, taste and color is solely derived from the fruit, a simplicity and purity like no other. It has a beautiful pink hue, one just wishes to indulge! Its aromas and flavours are purely of rhubarb, delicately sweet and tangy. Sivo rhubarb liqueur is perfect as a digestif. It is equally an essential ingredient in numerous cocktails.
